ROBUST ALL-ROUNDERS

LISTA drawer cabinets provide a robust and well protected storage option for equipment and many other items. High-quality specifications and a variety of individual configuration options make these robust all-rounders ideal for a wide variety of requirements and environments. Their special design guarantees optimum space utilisation. In addition, housing and drawers can be variably partitioned, intelligently labelled, protected with access control and finished in almost any colour. Nowhere else will you find this degree of flexibility.

Utmost stability

load capacity of housing up to 4 t; load capacity of drawers 75 or 200 kg

Can be utilised to the full

since drawers can be fully extended and the drawer shell heights are optimised

Well protected

against dirt, liquids and mechanical load through closed housing with impact and abrasion-resistant surface

Outstanding safety features

safety catch to prevent unwanted drawer opening and anti-tilt mechanism to prevent opening of more than one drawer at a time

+ Corrosion protection

with electrophoretic dip painting and environmentallyfriendly powder coating

Optimum order and organisation
thanks to special LISTA partition material for every
purpose and perforated, slotted drawers

Professional labelling

with LISTA Script labelling software and clip-on label holders which fold upwards

Perfectly smooth running

through differential pull-out without a crossbar

+ Flexibly adaptable

through pre-perforated holes for table tops (punchouts), rollers, drawers, locking systems for easy retrofitting and refitting

Secure locking option

with interchangeable cylinder for adaptation to existing locking systems and electronic locking systems via CODE, RFID or AUTO Lock

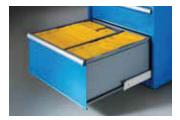

Fully compatible with LISTA partition material thanks to the standardised unit of measure see p. 248

Drawer cabinets

H Maximum use of drawer space

Optimum shell height

- drawer sides and rear panels the same height as the fronts
- maximum use of vertical space
- optimum protection against items falling out and loss of stored items

Full extension

- maximum use of horizontal space
- everything in view
- optimum access

Perfectly smooth running

Pull-out without crossbar

- perfectly smooth running and ease of movement through differential pull-out without a crossbar
- enables the drawer to be fully extended

Quiet locking tab

- special plastic cover in the locking tab
- smooth and quiet locking process

Professional labelling

Label holder which folds upwards

- on drawers, troughs, metal dividers, separators and housing
- for easy, clean and protected labelling

LISTA Script

The LISTA Script labelling software offers:

- numerous labelling options
- pictograms
- barcode generator

As a LISTA customer, you can download our LISTA Script labelling software free of charge from our website under Products > Accessories > LISTA Script.

Partition material for every purpose

The LISTA standard

Our drawer partition materials are standardised and therefore compatible with the entire LISTA range.

Drawer partition material see p. 248

Benefits of LISTA storage systems

Storage in drawers

Storing small parts in drawers rather than on shelves ensures that stored items are protected from dust and contamination while saving space and optimising organisation. The entire contents of the drawer are visible in no time, whereas with a shelf, items may have to be moved or reached over to gain access.

- The depth of a compartment can be adapted to suit the stored items at any time, and any number of parts can be placed one behind the other
- By simply pulling out the drawer, you can clearly see the contents and have everything within reach in a truly space-saving way

Example o

Example of space requirement

Usable depth $4 \times 600 = 2400 \text{ mm}$ Depth of aisle $2 \times 1000 = 2000 \text{ mm}$ Total 4400 mm

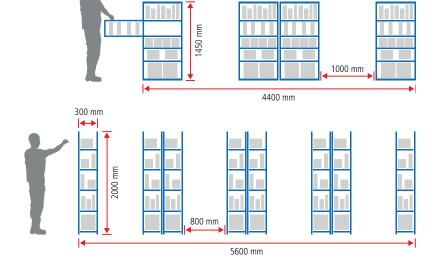

Storage on shelves

- If the parts are smaller than the depth of the shelves, there is a lot of unused space behind the goods
- If the items are stored behind one another, then space is needed for both visibility and access

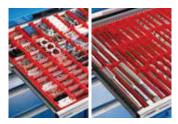

Example of space requirement

Usable depth $8 \times 300 = 2400 \text{ mm}$ Depth of aisle $4 \times 800 = 3200 \text{ mm}$ Total 5600 mm

600 mm

Optimum order and organisation

Plastic boxes and troughs for small and cylindrical items

Tool holders for NC storage

Metal separators for different sized parts

PE foam inserts for special and measuring tools

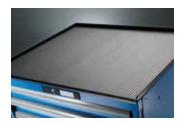

Perforated, slotted drawers hold items firmly in place

- a series of slots around the drawer walls hold the partitioning material firmly in place
- perforated drawer bases enable slotted dividers, metal separators, dividers, holding pins or milling cutter holders to be optionally screwed in place

Flexibly adaptable

Variable raised edges

- raised edges on three sides of stationary cabinets for simple and easy cleaning
- raised edges on four sides of mobile cabinets to protect the goods being transported

Punch out

- housing covers with pre-perforated holes which can be punched out
- for retrofitting with a table top or second drawer cabinet on top

Base/forklift base

- optional base and forklift base (for drawer cabinets with a width of 36 E and over)
- makes it easy to adjust the height of the drawer cabinet
- enables the loaded cabinet to be lifted and moved with a forklift truck

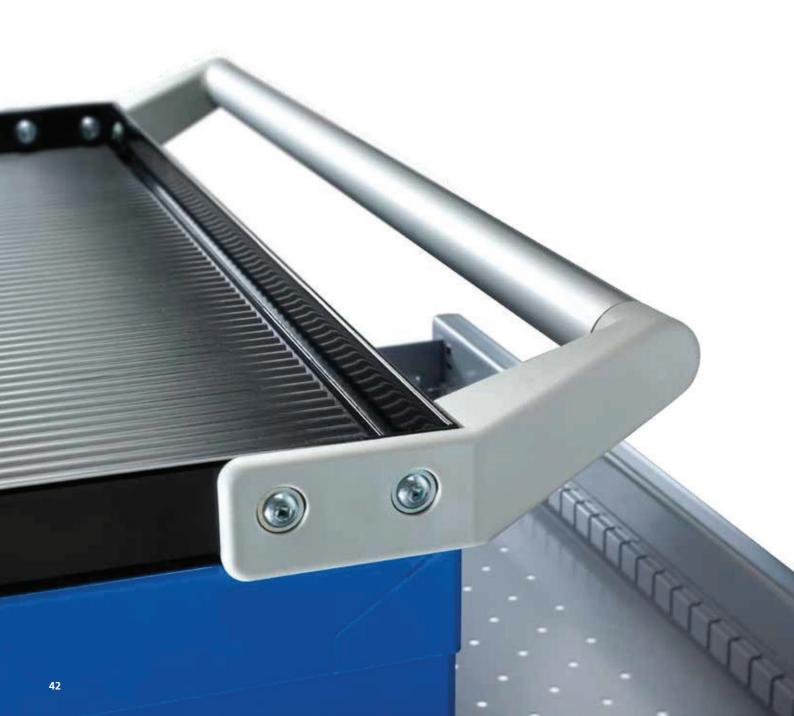

Mobile cabinets

Our mobile cabinets are supplied with:

- raised edges on all four sides and push-bar
- black ribbed mat
- two swivel castors with brakes
- two fixed castors and single-drawer locking mechanism

Stationary cabinets can be converted to mobile cabinets at any time.

Individual configuration options

As standard, LISTA drawer cabinets are available in seven different widths, two depths and a variety of heights. The configuration options in terms of size, equipment, locking system, colour and drawer partitions are almost unlimited.

Our drawer cabinets can be combined individually to suit any working environment in order to make maximum use of available space. They can be extended at any time and therefore offer a scaleable solution tailored to your needs.

Typical configurations

Configuration as a drawer cabinet

Configuration as a drawer cabinet with recessed hinged door, pull-out shelves and adjustable shelves

Configuration as a drawer cabinet with drawers, recessed hinged door, pull-out shelves and adjustable shelves

Configuration as a mobile drawer cabinet with raised edges and a push-bar

Toolbox: Drawer cabinet with combined drawer widths (64/36/18 E).
Version: stationary or mobile

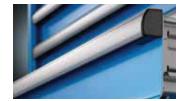

ESD version available on request

Outstanding safety features

Single drawer opening as standard

- prevents the cabinet from tipping over by blocking all other drawers when one drawer is pulled out
- allows for drawers to be moved around into a different arrangement at any time

Flush drawer front

- drawer handles with side covers which sit snugly within the front profile
- look good and are safe

Safety catches

- comply with all regulations against drawers accidentally falling out of cabinets
- reduce the risk of injuries at the workplace
- can easily be deactivated in order to move individual drawers

Information on load capacity

- the load capacity (75 or 200 kg) is inscribed on the drawer runners
- increased safety

Extra safety for stationary and mobile cabinets

Safety catch on right

- our standard safety catch for all mobile cabinets
- can be operated with one hand

Single safety catch on the right and left

- especially suitable for mobile equipment
- both hands are needed to operate them

Double safety catch

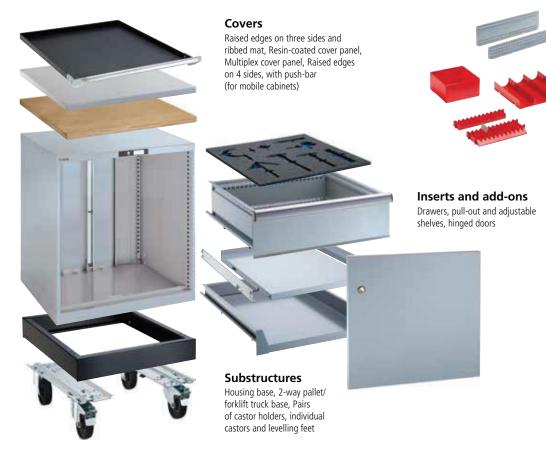

- has all the same features as the single safety catch on the left and the right
- easier to use since it can be operated with one hand

Lilo locking device

- with external lever for fixing the fully laden drawer in either open or closed position
- for a drawer load capacity of 200 kg

Countless configuration options

Partition material

Slotted dividers, separators, trough walls, metal separators, label holders, plastic boxes and trough separators, milling cutter holders and holding pins, non-slip mats, foam inserts and much more.

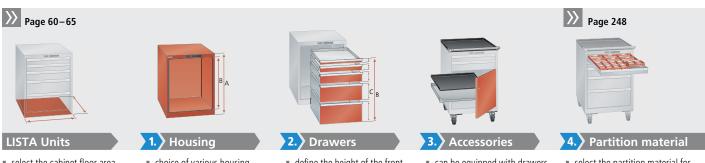

Locking systemsKEY Lock, CODE Lock, RFID Lock
or AUTO Lock

Order preconfigured models

... or configure and order cabinets individually

- select the cabinet floor area (e. g. $717 \times 572 \text{ mm} = 36 \times 27 \text{ E}$ or $717 \times 725 \text{ mm} = 36 \times 36 \text{ E}$)
- LISTA Unit E × E = a unit of measure which helps to choose drawers and partition materials
- choice of various housing heights (A)
- the choice of housing always includes the choice of the preferred locking system and the colour
- define the height of the front, the load capacity, the colour and the type of safety catch
- sum of the drawer front heights (C) = clear height (B) (see diagram)
- can be equipped with drawers and doors
- select the cabinet accessories
 mobile cabinets must have a drawer safety catch and a

push-bar

- select the partition material for the drawers
- N.B.: take the drawer height and usable surface into account!

12 standard colours

Maximum flexibility thanks to free choice of colours

All products with a choice of colours are available in 12 standard colours and 6 colour combinations without surcharge. The three-digit colour code (e.g. .010) forms part of the article number. When ordering, please complete the article number by adding the desired three-digit colour code (e.g. 70.701.010). Housings and drawers can also be ordered in different colours.

Art. no. **14.367.519.C** Housing: Light grey, RAL 7035 Fronts: Metallic grey, NCS S 6502-B (excluding partition material)

Equipped with drawers and doors

Drawer cabinets can optionally be fitted with drawers and a door. Because the door is recessed, special pull-out shelves are used. As standard, the two locks have different keys. Identical locks or a CODE/RFID Lock locking system are available on request (CODE/RFID Lock is not available for doors).

2. Drawers

Drawers with different front heights can be incorporated into the same cabinet housing in any order. The insides of the drawer walls are all fitted with a slotted grid in units (E) of 17 mm, which means each drawer can be partitioned as required.

Drawer safety catches

Standard: standard model including single drawer safety catch (all article numbers from the table).

Safety catch on right: the minimum requirement for mobile drawer cabinets. One-sided drawer safety catch on the right can be released with one hand and prevents accidental opening of drawers even if the cabinet is unlocked.

When ordering a single safety catch on the right, please add the suffix "R" to the article number in the table (e.g. 72.034.XXX.R).

Ordering tips

When selecting drawers, the clear height of the cabinet housing defines the size. The sum of the drawer front heights (C) must be equal to the clear height (B) (see diagram).

Raised edges on 3 sides and ribbed mat

Made from sheet steel, black, NCS S 9000-N, including ribbed mat, black.

Raised edge with ribbed mat Dimensions (W \times D \times H mm)	74.023.000 411 × 572 × 20	74.025.000 564 × 572 × 20	
Ribbed mat only Dimensions (W × D × H mm)	74.012.000 406 × 567 × 3	74.014.000 559 × 567 × 3	

Cover panel, resin-coated

Surface and edging light grey, NCS S 1500-N, laminated chipboard (quality class E1), with melamine coating on both sides (manufactured according to standard EN 14322). 2 mm thick plastic edging on all sides. Including pre-drilled holes and fastening material.

Resin-coated cover panel	74.140.000	17.268.000
Dimensions (W \times D \times H mm)	$411 \times 572 \times 22$	$564 \times 572 \times 22$

Multiplex cover panel

Made of steamed beech veneers, glued in multiple layers and waterproof (DIN 68 705), bevelled edges, sanded, oiled and waxed surface. The panel is splash-proof, dirt-repellent and largely impervious to oil and grease. Including pre-drilled holes and fastening material.

Multiplex cover panel	12.590.000	12.592.000
Dimensions (W \times D \times H mm)	$411 \times 572 \times 20$	564 × 572 × 20

Folding countertop

Attaches to the side of the drawer cabinet (depth 27E). It can be mounted either on one side or on both drawer cabinet edges and offers a work surface up to $1000\,\mathrm{mm}$ ($2\times500\,\mathrm{mm}$) wider. It is operated one-handed. Multiplex top, sanded, oiled and waxed surface. Load capacity 25 kg, Housing incl. 10×10 square perforation, 38 mm divisions with slots, for cabinet height 850 mm.

Folding countertop	69.555.XXX	69.555.XXX

Drawer cabinets I Drawers with power supply

Cabinet housing

Housing incl. punch-outs for power supply, incl. cable harness, excl. connection cable with earthing (must be ordered separately according to the lower version). For simultaneous securing of all drawers. Incl. KEY Lock, our standard locking system with replaceable cylinders. Manual opening/locking with key.

When ordering a cabinet with CODE Lock, please add the suffix "C" or for RFID or AUTO Lock the suffix "F" or "A" to the article number from the table (e.g. 74.915.XXX.C).

Other locking systems: see p. 28–31

Drawers

Drawers with different front heights can be incorporated into the same cabinet housing in any order. The insides of the drawer walls are all fitted with a slotted grid in units (E) of 17 mm, which means each drawer can be partitioned as required.

Ordering tips

When selecting drawers, the clear height of the cabinet housing defines the size. The sum of the drawer front heights (C) must be equal to the clear height (B) (see diagram).

Drawer cabinets I Workshop add-on modules

Bespoke workshop design to suit your line of work. Workshop equipment from LISTA has been tried and tested thousands of times in diverse industries. The modular design and excellent quality ensure that LISTA applications fit perfectly, are durable and robust. Special industry requirements are consistently met.

Typical vehicle workshop solutions

- cz1 Accessible hinged-door cabinet
- Disposal cabinet
- Mobile drawer cabinet*
- c4 Stationary drawer cabinet*
- Media supply cabinet Compact
- Media supply tower
- Perforated rear panel*
- **S2** Countertop*
- Power conduit*
- W1 Monitor overhead cabinet*
- Overhead cabinet*
- Roller shutter overhead cabinet

Toolbox

Folding countertop

Integrated folding countertop module, single-handed operation. Load capacity: 25 kg. Multiplex top: $564 \times 500 \times 20$ mm. Designed for drawer cabinet depth 27 E and drawer cabinet height 850 mm. See page 73.

Perforated rear panel for Toolbox 64E

Self-supporting perforated rear panel module, direct mounting on the drawer cabinet. Square perforation, 10×10 mm, 38 mm divisions with slots for holding accessories, usable height 360 mm. Colour as per colour chart. W×H: 1193×550 mm See page 73.

Countertop

This multiplex worktop has been specially adapted to the 64×27 E drawer cabinet to ensure a flush transition to the folding countertop Multiplex top: 30 mm (W \times D: 1193 \times 572 mm).

Cabinet toolbox 6427E/3 and 6436E/3

The toolbox system for dimensions $64 \times 36\,\mathrm{E}$ and $64 \times 27\,\mathrm{E}$ (H: 850 mm) offers the flexible option of accommodating combined drawers in the dimensions 64, 36 and $18\,\mathrm{E}$. See page 73. There are also various accessories that allow the cabinet to be individually configured as a small mobile workstation.

Perforated side panel

Integrated perforated side rear panel module with 10×10 mm square perforation, 38 mm divisions with slots for holding accessories. Designed for drawer cabinet depth 27 E and drawer cabinet height 850 mm H \times D: 755 \times 570 mm. Sheet steel design. Colour as per colour chart.

72.011.XXX 72.070.XXX

1. Cabinet housing with locking systems

To have simultaneous locking of all drawers, each cabinet housing can be configured individually using the KEY Lock

Housing with KEY Lock

2. Drawers

Drawers with different front heights can be incorporated into the same cabinet housing in any order. The insides of the drawer walls are all fitted with a slotted grid in units

(E) of 17 mm, which means each drawer can be partitioned as required.

Drawer safety catches

Safety catch on right: the minimum requirement for mobile drawer cabinets. One-sided drawer safety catch on the right can be released with one hand and prevents accidental opening of drawers even if the cabinet is unlocked.

When ordering a single safety catch on the right, please add the suffix "R" to the article number in the table (e.g. 72.034.XXX.R).

Ordering tips

When selecting drawers, the clear height of the cabinet housing defines the maximum size. The sum of the drawer front heights (C1+C2) must correspond to the clear height (B1: 200 mm + B2: 500 mm), see diagram.

For further drawers, see p. 60/61

Locking systems

The standard **KEY Lock** locking system with replaceable cylinders allows easy adaptation to existing locking systems. Further locking systems, e.g. CODE Lock and electronic locking via RFID transponder on request.

Pin hinged doors

Doors are flush with the cabinet housing. Opening angle approx. 115°

Doors with viewing windows

Provide an open view of the contents and also encourage users to keep the contents tidy.

Turn and push cylinder lock and smooth, quiet operation

Cannot be prised out thanks to a bar bent to right angles. The ball bearing rollers of the sliding doors run very quietly on the guide rails.

MORE FLEXIBLE THAN EVER

The new LISTA workshop trolley L3627 has been optimised for you in all of its key features and now offers you even more benefits, functions and improved ergonomics. In addition to even greater load capacities, its flexibility and adaptability make it the perfect solution for every area in the workplace. Because the basic models can be expanded to meet requirements at any time with versatile superstructures and add-ons.

- Optimum load capacities
 - Load capacity 40 kg per drawer, 400 kg housing
- Can be utilised to the full

 since drawers can be fully extended and drawer shell
- heights are optimised
- Absolutely safe to work with

 Central locking and single drawer opening protection against accidental opening when in motion
- Flexibly adaptable
 through perforated side and rear panels for holding accessories and tool hooks
- Extremely user-friendly with robust, ergonomic push handle

+ Full mobility

thanks to the smooth-running fixed and swivel castors (two of each) in solid rubber

+ Additional storage space and work surface

through hard-wearing wooden cover or non-slip plastic cover with compartments for small parts

Additional safety

through rounded corner pieces made from ABS plastic which act as buffers

>>> Fully compatible with LISTA partition material thanks to the standardised unit of measure

see p. 248

Fully modular and available in a wide range of versions

Depending on use and individual requirements, the basic models can be flexibly expanded in many ways by means of optional accessories.

Fully extendable without crossbar

- load capacity 40 kg
- enables it to be fully extended
- extremely smooth-running with great ease of movement

Labelling

- handle folds upwards
- easy, clean and protected labelling

Partition material

- perforated, slotted drawers hold items firmly in place
- extensive range of partition material in the LISTA measurement unit see p. 248

Single safety catch

- can be operated with one hand
- protects against accidental opening when in motion

Central locking

- a central locking system for all drawers
- secure and easy to use

Smooth-running castors

- two fixed castors
- two swivel castors including brake
- in solid rubber
- with generous Ø 100 mm

Push bar

- robust
- ergonomic
- material: anodised aluminium

Corner pieces

- protect against damage and also protect other workshop equipment or vehicles in the event of accidental contact
- material: ABS plastic
- colour: black, RAL 9005.

Wooden cover

- hard-wearing
- sanded, oiled and waxed surface
- material: Multiplex

Plastic cover

- non-slip
- including compartments for small parts
- material: ABS plastic
- colour: black, RAL 9005.

Perforated side panel

- perforated and slotted for holding accessories and keyhole hooks
- so that everyday tools are always ready to hand

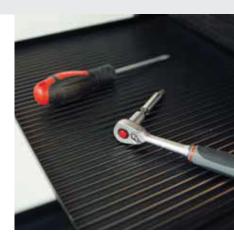

Perforated rear panel

- for fixing to the rear of workshop trolleys
- perforated and slotted for holding accessories and keyhole hooks see p. 162
- ergonomic tool arrangement
